Orcid: <https://orcid.org/0000-0003-1623-9799>

Nationality: Brazilian

Education/Training:

2022 – ongoing: PhD in Architettura e Ambiente, University of Sassari (UNISS), Italy

2021-2025: São Paulo State University (UNESP), Brazil

PhD in Forest Science (in course)

Research field: Soil microbiome in seasonal dry forest (Atlantic Forest domain) with different conservational statuses.

Supervisor: Dr. Iraê A. Guerrini

2015-2017: São Paulo State University (UNESP)

Master's degree in Forest Science

Research field: Inoculation of rhizobia in seedlings of neotropical legume tree *Pseudalbizzia niopoides*.

Supervisor: Dr. Iraê A. Guerrini

2011-2014: University of Western São Paulo (UNOESTE)

BSc in Agronomy

Experience

2023/24: Student exchange program (12 months) in Italy at the University of Sassari, Sardinia (granted by CAPES-PrInt Program, CAPES, Brazil. Learning in spatial information analysis, QGIS software, statistical analysis, writing of scientific material, research in soil microbiology.

November 2022: Participation in an Inventory Project for carbon survey in the Amazon Rainforest, municipality of Apuí, Brazil.

June 2022: Participation in an Inventory Project for carbon survey in the Amazon Rainforest, municipalities of Porto Velho, Manicoré and Apuí (Brazil).

Technical reviewer of audit documents: QIMA WQS: 2017-2023. Programs Global G.A.P. and other food security (vegetables) programs.

Skills

Communication, writing informative texts, teaching didactics.

Research in scientific literature, elaboration of hypotheses, planning of tests.

Analysis of research data, with experience in Excel and R software.

GIS: spatial analysis, production of thematic maps, QGIS software.
