

MATILDE PILERI

PhD Candidate in Architecture and Environment at the University of Sassari, exploring the relationship between sustainability, food systems and environmental practices through an interdisciplinary approach to language and meaning.

Alongside my academic work, I am co-founder of small agricultural initiatives, driven by a strong interest in the cultural, ethical and epistemic dimensions of food practices.

WORK EXPERIENCE

2022 – Present

Co-Founder and Manager

Giardino dei Faci Winery, Vinchio (AT), Italy
Co-management of the company, with a focus on sustainable practices within local food systems.

2018 – Present

Co-Founder and Manager

Podere del Maro Winery, Borgomaro (IM), Italy
Co-founded and manage a small-scale organic winery.
Implementation of sustainable agricultural practices, product development, and communication across digital and traditional channels.

2021

Freelance Contributor

Sapereambiente Magazine
Produced articles and content on environmental and cultural topics, with a focus on sustainability, food systems and ecological awareness.

- Mangeremo carne sintetica? Viaggio nel futuro del cibo con il doc di Liz Marshall
- Città di Luni, la Liguria riparte dai borghi

2020 – 2021

Back Office, Administration and Production Support

Foradori Farm, Mezzolombardo (TN), Italy
Administrative and organizational support within a biodynamic agricultural context. Managed client relations, events, and direct sales activities, gaining insight into sustainable production and distribution practices.
